**Subject:** RE: v. [REDACTED], trial on 8-9-10

I finally heard back from the Pittsfield ADA. One of the two defendants in the case requested a new attorney (today), so the trial has been continued to a later date and, therefore, I am available at 2pm on Tuesday, 8-17 if you want. Just let me know so I can keep the Plymouth ADA know what is going on on Wednesday. Thanks.

I've emailed and called the ADA for the Pittsfield trial, but I still haven't heard back from him. As for Wednesday, I am scheduled to be in Plymouth. I've gotten in touch with that ADA and she has told me that that case is still on, but has stated that she is "more than happy to put you on call for that day if you have another court to be in in the morning." So if Pittsfield is still on, could you plan on getting me on the stand fairly early Wednesday morning so I can be available the rest of the day for Plymouth? I'll let you know as soon as I hear anything from Pittsfield. Thanks.

I'm scheduled to be in Pittsfield for District Court that day. I emailed the ADA involved in that case earlier this morning to find out what is going on in that case (i.e. if he still needs me) - I'll let you know when I hear back from him.

I'm curious as to the status of the [REDACTED] trial and if/when you will need me to testify. I informed a district court ADA that I also have a case with today about the Superior Court trial and told her that I would keep her informed as to when I may be in Springfield. Thanks.

ADA Bryson-

I've got a couple questions regarding the [REDACTED] trial scheduled for Monday, August 9th. I believe you said that you would need to pick a jury that day first. If you need me on Monday, I was wondering if it would be possible to not need me there until 2 (or later)? I'm curious as my car needs a little work done on it to pass inspection and I wouldn't have access to a car until about 1pm. If this is not possible, I will put off getting the work done until later in the week, but I hate driving around with a rejection sticker. Please call me at the lab if you think this would be possible. Thanks.
